

Superhero's to the Rescue

Everyone loves a good super hero movie. Have fun creating and designing your own superhero stories and characters with the below crafts.

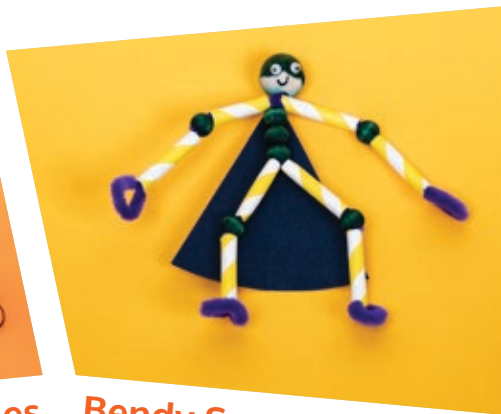

Superhero Accessories

Imagining your very own superhero can be lots of fun and using these crafts you can play the part.

There are many more elements that can make up a superhero costume but here are two easy ones to start with.

Instructions found at oscn.nz/files/superheroaccessories.pdf

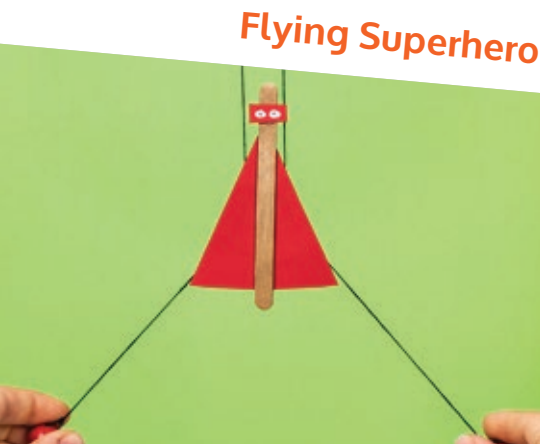

Bendy Superhero

Strike a pose! Every superhero has its power pose and this bendable character will allow you to try out and enact your very own.

Pipe cleaners make up the bulk of the body, then straws are added for the limbs and a bead at each bendy joint.

Instructions found at oscn.nz/files/bendysuperhero.pdf

Flying Superhero

"Is it a bird? Is it a plane?" No it's your favourite superhero! Time to make your very own flying superhero. The superhero is made from an ice block stick and some card. Straws are then added to the back with some string so when pulled it will fly up.

Instructions found at oscn.nz/files/flyingsuperhero.pdf

Villain Bowling

BAM! POW! SPLAT! Let's take out all those villains in this fun travel-sized bowling game.

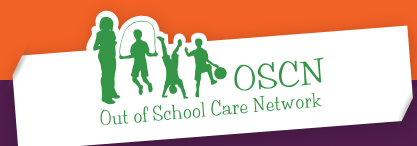

The pins are made from wooden doll people decorated to look like villains. Then a wooden decorated bead is rolled to take them out.

Buttons galore

Button Wheel Cars

Vrooom! Time for a race with these unique peg based cars.

These cars use a peg for the main part. Then straws are added to hold the toothpick axels to which button wheels are added.

Instructions found at oscn.nz/files/buttonwheelcars.pdf

Button Mobile

Add some colourful decor to any space with these button mobiles.

The top of this craft is made from a jar lid but anything could be used to hang the strands off. The strands are made from buttons threaded onto string.

Instructions found at oscn.nz/files/buttonmobile.pdf

Button Flowers / Tree

The button's shape means they easily mimic anything round like leaves or flowers.

Both these crafts use buttons threaded onto wire then bent to specific shapes to make them.

Instructions found at oscn.nz/files/buttonflowerstrees.pdf

Find The Resources

Buttons are easy to find at most craft stores, however many discount retailers and charity shops also sell bulk button packs to make all your button crafts.

Button Bracelet

Time for a creative piece of jewellery to adorn any wearer's arm.

Dual layers of buttons are strung onto string then finished off with a loop as the bracelet closure. It's that easy.
